

# SAFETY DATA SHEET

Effective: January 26<sup>th</sup> 2015

## Section I: Identification of Substance / Preparation and of The Company / Undertaking

**Identification of Preparation:** Pacothane Release Film - Type LE 1500, LE 2000

**International Designation:** Pacothane LE Release Film

**Company Identification:** Multilayer Worldwide Enterprises  
37 East Street  
Winchester, MA 01890  
Phone: (781) 729-0927  
Fax: (781) 729-9093

**MSDS Preparation by:** Multilayer Worldwide Enterprises

## Section II: Hazards Identification

**Canadian WHIMS:** Not a controlled product.

**EU Preparation Classification (1999/45/EC):** Not a Dangerous Product

**Emergency Overview:** Dust generated during machining, grinding, or cutting of this material may cause mechanical irritation of the skin, eyes, and/or upper respiratory tract.

**Human Health Hazards:** None known

**Routes of Entry:** At temperatures exceeding 235°C, strong acids or bases may hydrolyze film

## Section III: Composition / information on Ingredients

Material	Percent	CAS Number	EC Number	Hazard Classification
Polyethylene Terephthalate	50-80	Not Applicable	Not Applicable	Not Applicable
Acrylated Epoxy Mixture	20-50	Not Applicable	Not Applicable	Not Applicable
Diatomaceous Earth <sup>1</sup>	> 1	Not Applicable	Not Applicable	Not Applicable

## Section III: Hazards Identification

**Canadian WHIMS:** Not a controlled product.

**EU Preparation Classification (1999/45/EC):** Not a Dangerous Product

**Emergency Overview:** Dust generated during machining, grinding, or cutting of this material may cause mechanical irritation of the skin, eyes, and/or upper respiratory tract.

**Human Health Hazards:** None known

**Routes of Entry:** At temperatures exceeding 235°C, strong acids or bases may hydrolyze film

## Section IV: First Aid Measures

**Seek immediate medical attention if irritation occurs.**

**Inhalation:** Remove individual to fresh air. Treat respiratory distress as appropriate.

**Skin:** Remove contaminated clothing and wash skin thoroughly with soap and water.

**Eyes:** Immediately flush eyes with large amounts of temperate water for a minimum of 15 minutes. Seek medical attention.

**Ingestion:** Unlikely source of exposure based on expected use. Seek medical attention.

## Section V: Fire Fighting Measures

**Extinguishing media:** Carbon dioxide, foam, dry chemical, water.

**Unusual fire and explosion hazards:** None.

<sup>1</sup> Represents inhalation hazard in powder form. As encapsulated in high melt point plastic, it is not possible to inhale unless film is ground to powder of breathable size.

# SAFETY DATA SHEET

**Special fire fighting procedures:** If possible, wear fire resistant clothing and self contained breathing apparatus in any enclosed space.

## Section VI: Accidental Release Measures

Sweep or scrape into approved container for proper disposal.

## Section VII: Handling and Storage

**Handling:** Product is a solid at temperatures below 235°C and do not pose a health hazard as shipped.

**Storage:** Store at room temperature in original containers, if applicable.

## Section VIII: Exposure Controls / Personal Protection

### Personal Protective Equipment

**Respiratory:** Adequate general or local ventilation.

**Skin Protection:** Wear protective gloved during handling.

**Eyes:** Always wear safety glasses or face shield when machining, cutting, grinding, or otherwise handling product.

## Section IX: Physical and Chemical Properties

**Appearance:** Matte translucent film

**Odor:** Not applicable

**pH:** Not applicable

**Boiling Point:** Not applicable

**Flash Point:** Not applicable

**Lower Explosive Limit:** Not applicable

**Upper Explosive Limit:** Not applicable

**Vapor Pressure:** Not applicable

**Specific Gravity:** Not applicable

**Solubility in Water:** Not applicable

**Partition Coefficient:** Not applicable

**Viscosity:** Not applicable

**Total Volatile Organic Compounds:** Always wear safety glasses or face shield when machining, cutting, grinding, or otherwise handling product.

## Section X: Stability and Reactivity

**Stability:** Material is stable under expected conditions of use.

**Incompatibility:** Strong acids.

**Hazardous Decomposition Products:** None known

## Section XI: Toxicological Information

### Effects of Overexposure

**Inhalation:** None known

**Skin:** None known

**Eyes:** None known

**Ingestion:** None known

**Chronic Toxicity:** None known

**Mutagenicity:** None known

**Reproductive:** None known

## Section XII: Ecological Information

**Ecotoxicity:** No specific data available

**Mobility:** Low in soil and water based on negligible water solubility

**Degradability:** Not biodegradable or water soluble

**Bioaccumulation:** Extent unknown, material has long half-life

# **SAFETY DATA SHEET**

---

## **Section XIII: Toxicological Information**

---

Follow all applicable local, national, territorial, and/or international regulations. Refer to the European Waste Catalog (EWC) for waste code(s).

---

## **Section XIV: Transport Information**

---

Not Regulated.

---

## **Section XV: Regulatory Information**

---

No specific Regulatory Information available.

---

## **Section XVI: Other information**

---

Current MSDS Date: January 26, 2015  
Previous MSDS Date(s): New
